

# COB & CO DOUBLE

Plus 10% Urea

20kg

A concentrated protein/multi-nutrient supplement for ruminants grazing dry, copper & cobalt deficient pastures.

## TYPICAL ANALYSIS

Urea	10%
Molasses	4.5%
Salt (NaCl)	59%

### MACRO INGREDIENTS

Calcium (Ca)	11.5%
Phosphorus (P)	0.44%
Sulphur (S)	0.83%

### MICRO INGREDIENTS

Copper (Cu)	6000mg/kg
Cobalt (Co)	800mg/kg
Selenium (Se)	26mg/kg

**FOR ANIMAL TREATMENT ONLY.**

**THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.**

Olsson's Cob & Co Double is a macro mineral supplement designed for deficiencies of copper and cobalt in the feed, with double the copper and cobalt of Cob & Co. Balancing these essential elements results in the efficient breakdown of feed consumed by the animal. Trace Elements effect the animal in many ways. Deficiencies in copper can effect spinal cord development, fibrosis of the heart and heart failure, red blood cell development, scouring and conception. Cobalt deficiency can cause loss of appetite, anaemia, weight loss, and eventually death.

Cob & Co Double can be used all year round to promote rumen function, which will assist in animal growth, wool quality and reproductive function.

## DIRECTIONS FOR USE

### Feeding Instructions:

Use in accordance with the Olsson Indicator system.

**Sheep/Goats:** 1 block per 50 head

**Cattle/Deer:** 1 block per 15 head

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Avoid contact with skin and eyes.

**Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.**

### Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
