

COB & CO

Plus 10% Urea

20kg

A concentrated protein/multi-nutrient supplement for ruminants grazing dry, copper & cobalt deficient pastures.

TYPICAL ANALYSIS

Bypass Protein Meal	15%
Urea	10%
Total Protein Equivalents	35%
Molasses	4.5%
Salt (NaCl)	Max. 31%

MACRO INGREDIENTS

Calcium (Ca)	11.2%
Phosphorus (P)	0.37%
Sulphur (S)	0.83%

MICRO INGREDIENTS

Copper (Cu)	3g/kg
Cobalt (Co)	0.4g/kg
Selenium (Se)	26mg/kg

FOR ANIMAL TREATMENT ONLY.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.

Olsson's Cob & Co is a macro mineral supplement designed for deficiencies of copper and cobalt in the feed. Balancing these essential elements results in the efficient breakdown of feed consumed by the animal. Trace Elements effect the animal in many ways. Deficiencies in copper can effect spinal cord development, fibrosis of the heart and heart failure, red blood cell development, scouring and conception. Cobalt deficiency can cause loss of appetite, anaemia, weight loss, and eventually death.

With added urea this block is ideal for dry pastures typically found in mid to late winter, although can be used all year round. Urea based products must be managed. If unsure please contact Olsson Industries.

DIRECTIONS FOR USE

Feeding Instructions:

Use in accordance with the Olsson Indicator system.

Sheep/Goats: 5-10g per head per day

Cattle: 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Avoid contact with skin and eyes.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover.
