

# DAIRYMIX

**20kg  
bag**

An aid in combating selenium & zinc deficiency in lactating cows fed grain concentrates.

## TYPICAL ANALYSIS

Salt (NaCl)	36.04%
Calcium (Ca)	18%
Phosphorus (P)	5.4%
Magnesium Oxide (MgO)	9.6%
Sulphur Precipitated (S)	2.48%
Zinc (Zn)	0.4%
Manganese (Mn)	0.13%
Cobalt (Co)	21.5mg/kg
Selenium (Se)	13.2mg/kg
Copper (Cu)	250mg/kg
Vitamin E	825 i.u./kg

**FOR ANIMAL TREATMENT ONLY.**

**THIS PRODUCT DOES NOT CONTAIN  
RESTRICTED ANIMAL MATERIAL.**

Olsson's Dairy Mix is a concentrated loose-mix supplement available in 20kg bags. Dairy Mix has been formulated especially for addition to bail concentrate fed to high producing dairy cows.

Dairy Mix is dual purpose. It buffers grain fed in the bail so that cattle can efficiently digest pasture, while also supplementing minerals where a deficiency may either reduce production or cause metabolic disorders.

Optimum nutrition is required to achieve potential milk production, milk quality requirements, and herd health and fertility.

## DIRECTIONS FOR USE

### Feeding Instructions:

Thoroughly blend 20kg of Dairy Mix to 980kg of prepared feed, i.e. 2% mix.

Avoid contact with skin and eyes. Avoid breathing dust.

### Storage Instructions:

Store out of direct sunlight and under cover. Store below 30°C (room temperature).
