RESTRICTED ANIMAL MATERIAL.**

Olsson's Lush Green Feed Block is designed for sheep and cattle grazing green pasture or fodder crops. It provides optimum conversion on high quality feeds.

Green pastures are often described as "gutless" due to low levels of required minerals that may have been leached from the soil. Lush replaces many of these minerals, assisting the grazer to optimise the growth potential of the available feed.

## DIRECTIONS FOR USE

### Feeding Instructions:

Use in accordance with the Olsson Indicator system.

**Sheep:** 1 block per 30 head

**Cattle:** 1 block per 10-15 head

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Replace blocks when consumed. Place away from water to maximise pasture utilisation. Withholding period nil.

Avoid contact with skin and eyes.

### Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
