Iodine (I)	95-110mg/kg
Boron (B)	32-38mg/kg
Sulphur (S)	0.98-1.2%
Manganese (Mn)	40-43mg/kg
Molybdenum (Mo)	<0.5mg/kg

FOR ANIMAL TREATMENT ONLY.

**THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

*Available in
20kg bags*

Made by the action of sun and wind on pristine Australian sea water, Olsson's raw Macrobiotic Horse Salt is free from additives or preservatives and retains a high level of natural marine minerals and over 80 naturally occurring trace elements.

Horses at rest require a minimum of 25g of salt per day, and up to 200g depending on conditions and workload. Our macrobiotic salt contains naturally occurring potassium and magnesium that assists to maintain electrolyte balance.

Reduced feed and water intake are common signs of a salt deficiency. All horses should be offered salt *ad libitum*.

DIRECTIONS FOR USE

Feeding Instructions:

In most cases, salt consumption at the rate of .05% of total diet is adequate. Always have water freely available when supplementing with Olsson's Macrobiotic Salt.

Storage Instructions:

Store out of direct sunlight and under cover.
