Olsson's Mineral Horse Mix is a supplement for horses grazing pastures high in oxalates that can tie up minerals, particularly calcium. It is a valuable supplement as it is a means of ensuring that your horses are receiving the necessary mineral important for growth and performance.

Olsson's Horse Mineral Mix is especially effective in preventing "Big Head" in horses. Containing Copra Meal and an anhydrous Molasses, its nutritious and palatable for all types of horses. Can be used in conjunction with Olsson's Equine block.

DIRECTIONS FOR USE

Feeding Instructions:

Use in accordance with the Olsson Indicator system.

Horses: 500-750g per horse per day, dependent on size of animal. Feed on an ad-lib basis.

These recommendations are intended as a guide only. The amount fed will vary according to horse condition and the quality of pasture and/or roughage available.

Avoid contact with skin and eyes.

Storage Instructions:

Store out of direct sunlight and under cover.
