Sulphur Precipitated (S)	15.8g/kg
Zinc (Zn)	1.0g/kg
Cobalt (Co)	7mg/kg
Selenium (Se)	2.6mg/kg
Copper (Cu)	250mg/kg
Vitamin E	1031iu/kg
Vitamin A	137500iu/kg

FOR ANIMAL TREATMENT ONLY.

**THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

Olsson's Sheepmix is a mineral concentrate premix to be added to finished grain diets.

Feeding excess grain can result in unhealthy animals due to acid build up in the rumen. Sheepmix balances the mineral content, and benefits include faster weight gains and better feed conversions.

Sheepmix is simple to use, simply blend one bag (20kg) to 980kg of prepared feed and mix thoroughly.

Active constituent: Each kilogram contains Flavenco 1.5g. This level of Flavenco in final feed is insufficient for disease control. Also contains selenium as sodium selenite.

DIRECTIONS FOR USE

Feeding Instructions:

Thoroughly blend 20kg of Sheepmix to 980kg of prepared feed, i.e. 2% mix.

Do not feed the concentrated bag directly to animals, it must be mixed with prepared feed. Do not feed to horses.

Withholding Period: Nil

Avoid contact with skin and eyes. Avoid breathing dust.

Storage Instructions:

Store out of direct sunlight and under cover. Store at room temperature (below 30°C).
