FOR ANIMAL TREATMENT ONLY.

**THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

Olsson's Sulfos Dry is a salt based dry season supplement which is available in 19, 38 & 95kg lick blocks.

The use of a balanced mineral supplement such as Olsson's Sulfos improves the rumen environment, increases microbial growth, improves digestibility and enhances intake of forages.

The result is higher production and increased reproduction. The inclusion of trace elements in Olsson's Sulfos Dry also reduces the risk of further deficiencies.

DIRECTIONS FOR USE

Feeding Instructions:

Use in accordance with the Olsson Indicator system.

Sheep/Goats: 5-10g per head per day

Cattle: 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.

Locate blocks away from watering points to encourage stock to graze out.

Avoid contact with skin and eyes.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
