

U30

With 30% Urea

**18, 36
& 100kg**

**A rumen digestible protein supplement
for superior feed conversion of dry feed**

TYPICAL ANALYSIS

Bypass Protein Meal	15%
Urea	30%
<i>Total Protein Equivalents</i>	<i>89%</i>
Molasses	6%
Salt (NaCl)	36%

MACRO INGREDIENTS

Calcium (Ca)	1.2%
Phosphorus (P)	0.08%
Sulphur (S)	0.04%

**FOR ANIMAL TREATMENT ONLY.
THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

Olsson's U30 provides both digestible protein to the rumen micro-organisms and bypass protein to the animal to maximise feed digestion and production in dry conditions.

The compressed block design provides a secure method of urea/protein delivery that limits the available intake, maximising feed conversion and reducing waste. Suitable for all cattle breeds.

DIRECTIONS FOR USE

Feeding Instructions:

Use in accordance with the Olsson Indicator system.

Sheep/Goats: 5-10g per head per day

Cattle: 50-100g per head per day

Place out sufficient blocks to avoid overcrowding of stock. Replace blocks immediately when consumed.

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Avoid contact with skin and eyes.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
